Agile Java Developer

Place of work: Warsaw

Description:

In order to strengthen our agile development teams, we are looking for developers with interest in both development and testing. The Agile Java Developer will be working in a Scrum team that together with their product owner take responsibility of creating high quality software in short release cycles.

Qualifications and Education Requirements

- Love to work in team and to collaborate with others
- Passion and interest in ensuring quality of what the team delivers
- Understand the importance of creating high quality software and having short feedback loops with customers and stakeholders
- Good knowledge of Java, Spring Framework / Spring Boot / Spring Data / Spring Security, Hibernate, JavaScript, Angular, PostgreSQL, GIT, REST
- Bachelor's / Master's degree in Computer Science or equivalent experience
- Good English skills, we use English on a daily basis

Nice to have

- Scrum Master and/or Agile environment experience is an advantage
- Experience in Agile Testing and exploratory testing
- Docker, Kubernetes, DevOps, Continuous Delivery.
- Atlassian products portfolio (JIRA, Bamboo, Confluence etc)
- Use of Test-Driven development methodologies
- Strong technical and design skills and ability to learn new technologies quickly

FARA offers

- A high degree of autonomy and responsibility, as well as influence on the continued product development
- Professional and personal development in a company experiencing strong growth
- A friendly international working environment characterized by expertise, responsibility and innovation
- Competitive terms and conditions

A detailed CV in English is highly appreciated.
